

9000 Series

Automated Disc Duplicators

The TCA-9000 series desktop duplicators provide high throughput, high capacity duplication in an amazingly small footprint. Fast recorders, large capacities and smooth robotics make this series perfect for the office environment and service bureau alike! The optional gigabit network upgrade combined with TrueNet 2 software makes this one of the most flexible automated duplicators available today!

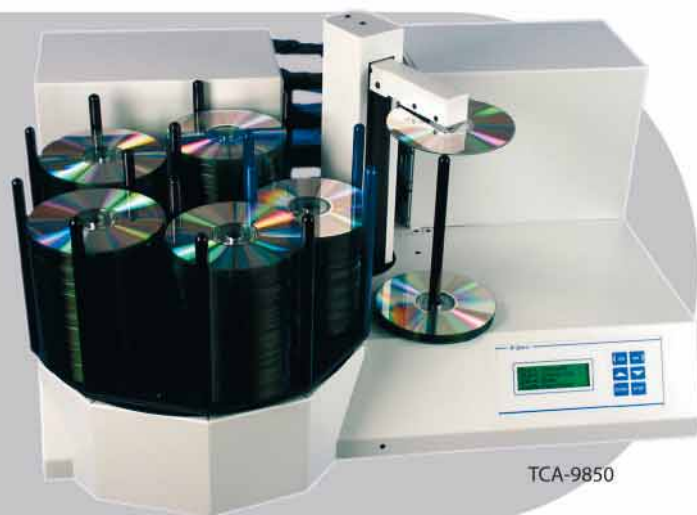

The TCA-9200 is the perfect entry level system without compromising performance. It features 2 high speed recorders and 220 disc capacity, all in a small package. However, if you are looking for maximum throughput, check out the TCA-9850 (8 recorders and 550 disc capacity) or the amazing TCD-1800 which not only includes 8 high speed recorders, but also an amazing 1000 disc capacity in a very compact space!
