

# Print Stations

## Automated Disc Printing Systems

Are you looking for an automated CD/DVD printer that can print using your favorite graphics program? Then the H-3000™ is for you! The H-3000™ is a PC hosted print station designed for easy operation - simply print directly from your favorite graphics program and let the H-3000™ handle loading and unloading the printer for you automatically! With the H-3000™ you can choose from colorful ink-jet printers or durable, crisp thermal printers.

The TP-5100 works as a print only work station, or can be run via ethernet network. The simple LCD touchpad makes this machine as easy to use as a simple copier. With reliable robotics and simple menu driven operations, the R-Quest printing stations allow you to create quality prints on the media of your choice.
